Product Overview:

The **Pertronic** Analogue Addressable Manual Call-Point is a high-reliability Fire Alarm activation device with a compact, aesthetically pleasing, low profile design.

Each call-point incorporates a System Sensor analogue addressable module to enable exact identification of the operated device.

Features:

- High reliability Fire Alarm activation device
- Fully complies with NZS 4512:2003 and NZS4512:1997
- Up to 99 Call-Points per analogue addressable loop
- Red LED indication: the LED latches ON, when activated
- System Sensor communications protocol
- 'Snapglaze' frangible element for improved user safety (Patent NZ Number: 272427)
- Gold-plated switch contacts for false-alarm free operation
- Surface or semi-flush mounting options are available.
- Optional Adapter Plate for Retro-Fit Applications (150mm x 150mm for Semi-Flush Mounting)
- Mounting screws are concealed by matching red screw caps
- Terminals accept up to 1.5mm² cable

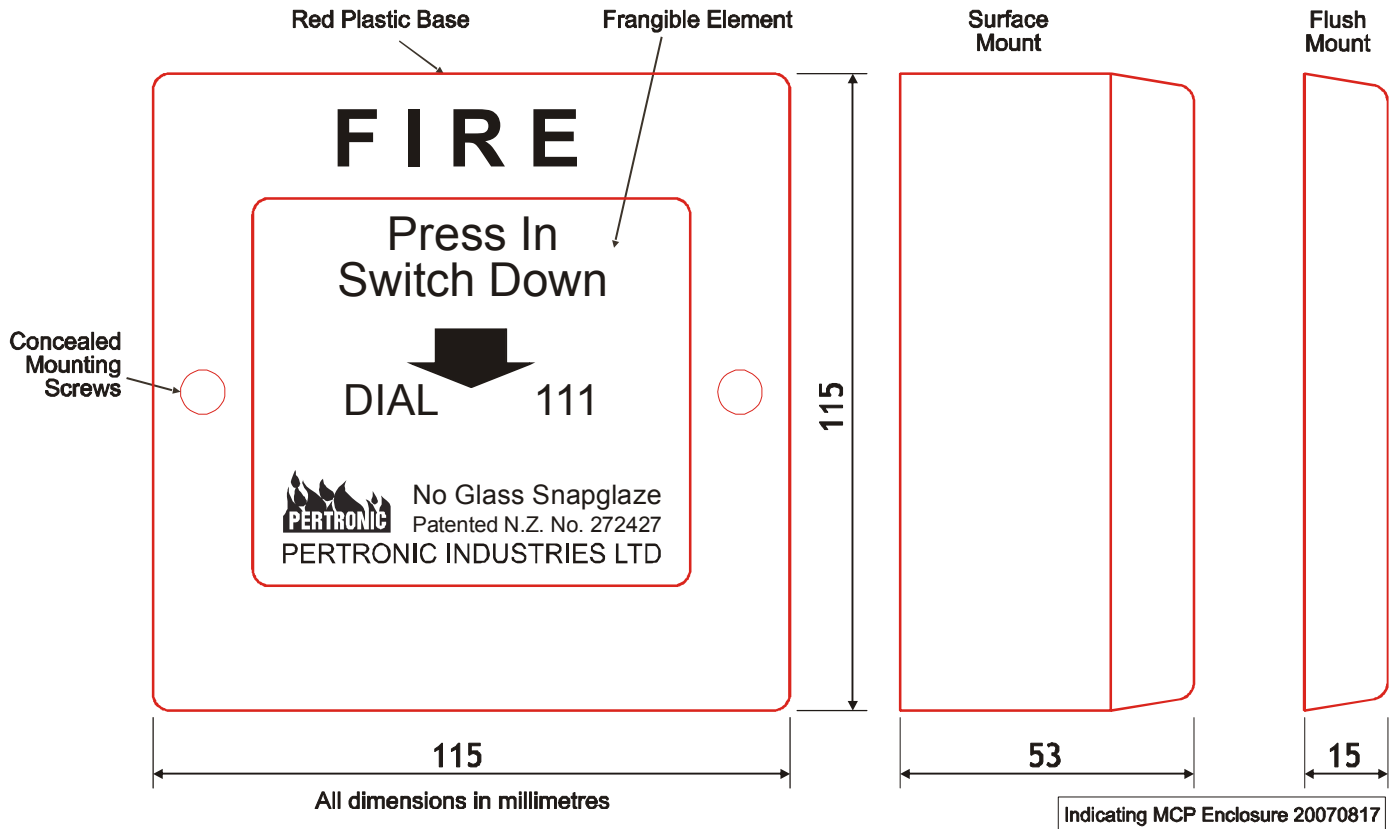

Specifications:
